FORMATION

EPITECH | Programme Grande Ecole 2024 - 2029

Information Technology Expert diploma (+5 years)

Proficient in C programming, with extensive experience in developing diverse projects.
Demonstrated strong skills in project management and team collaboration, enabling successful completion of projects ranging from recreating system commands to designing and implementing complex graphical simulations.

Lycée Georges Colomb, Lure 2021 - 2024

High school

Specialities:

- Mathematics
- Physics and Chemistry

EXPERIENCE

Internship at Avada-consult — 2025

Completed a six-month internship at Avada-Consult, contributing to the development of Gordios, an AI-powered regulatory audit SaaS platform for medical devices.
Developed and enhanced full-stack features using Vue.js, TypeScript, MongoDB, and Google Cloud, including AI-driven document analysis and custom compliance testing tools.
Collaborated directly with the CTO in an agile environment, optimizing API performance and integrating advanced AI workflows into production.

EDUCATION

General Baccalaureat — 2023

Grade: With Honors

Learning by myself — Currently
